

THE KAIKOURA REGION: A BIBLIOGRAPHY

J. VAN BERKEL and W. DAVISON

Edward Percival Field Station, The Esplanade,
Kaikoura, New Zealand

INTRODUCTION

Kaikoura has been the centre for a great variety of research for many years, some of it directly related to Kaikoura and its flora and fauna, while other research has used the region as part of nationwide surveys. This bibliography has concentrated on the former type of research, highlighting work actually carried out at Kaikoura. This paper, undoubtedly will not cover every publication, but we have endeavoured to include every possible reference which we could find, in the hope that it will form a useful stepping stone for anyone wishing to carry out research in the Kaikoura region. Rather than simply list publications in alphabetical order we have grouped titles under several broad headings.

ZOOLOGY

TERRESTRIAL

PHYSICAL ECOLOGY

D.M. HUNT and GILL, B.J. 1979. Physical aspects. pp 7-10. In: Gill, B.J. and Hunt, D.M. (Eds.) *Ecology of Kowhai Bush, Kaikoura*. Mauri Ora special publication 2.
